West Sussex, RH13 8GR

This is an original Italian supplied scooter in 1964. I have owned it for over 40 years but with 3 house moves I lost the paperwork so have had to re register it now I have decided to sell it. The new paperwork shows declared manufacture as 1964. It has had a complete rebuild and as you can see from the photos is in super condition with only 44000 klms on the clock. (27000mls). I do have 2 other scooters witch are also going now that I am in my 70s. Photos to follow soon
